Maths & Logic Pack

Young Thinkers • Ages 7+

Count • Think • Create • Celebrate

Young Thinkers • Ages 7+

Unlock IQ Kids • www.unlockiqinstitute.com

Welcome to Diwali Maths!

A note for grown-ups

Diwali is a time for light, colour, family — and curious minds. This pack turns familiar Diwali moments into playful chances to count, notice, compare, reason, create and solve. Children do not need to finish every page: choose what suits your child, let them think aloud, and celebrate the attempt as much as the answer.

Star guide

- ★★ Ready to go — for children aged 7 and above
- ★★★ Challenge — try it, or solve it together as a family

What is inside

A	Numbers and data	pages 2–5
B	Logic and observation	pages 6–11
C	Patterns, symmetry, shapes and mazes	pages 12–18
D	Diwali maths: sums, money, sharing, time	pages 19–28
E	Memory, story, home hunt, safety, kindness, rangoli	pages 29–35
F	Draw step by step	pages 36–45
G	Colouring and a green, cracker-free Diwali	pages 46–56
H	Diwali card, answers and certificate	page 57 onwards

Diwali safety

Diyas, lamps and flames are for grown-ups. Children should ask an adult before lighting anything, keep a safe distance, and never leave a burning diya alone. We encourage a cracker-free Diwali — kinder to animals, elders and our air.

- Print the pages you need — print them again as often as you like for your own family.
- Ask your child to explain each answer: "How do you know?" builds real reasoning.
- Answers are at the back. Check together and award the Diwali Star certificate!

Skip counting makes counting faster!

Name: _____

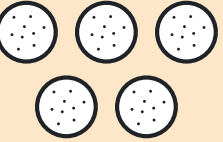

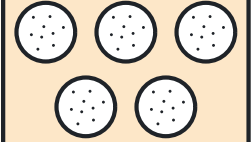

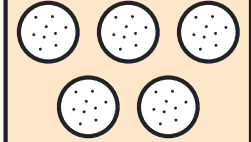

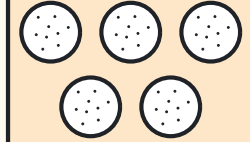

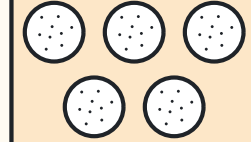

Date: _____

A. Diyas come in pairs. Count in 2s.

						
2						

How many diyas in all?

B. Each sweet box has 5 laddoos. Count in 5s.

				
5				

How many laddoos in all?

C. Keep counting!

Read the story and answer.

Name: _____

Date: _____

It was the morning of Lakshmi Pujan. Aaji called Aarav and Anaya into the kitchen. "Today we will make besan laddoos together," she smiled. Aarav poured the roasted besan into a big bowl. Anaya added sugar and a spoon of cardamom. Aaji showed them how to roll the mixture into small balls. Aarav made 6 laddoos and Anaya made 6 laddoos. Aaji made 8 more. They arranged them on a shiny plate. "Let us keep 4 for _____ from both. "Sharing
